

INFORMATION PROVIDED BY STAFF – DISCLAIMER AS LEGAL ADVICE

IREC Staff is available to provide general information concerning the licensing statutes and rules that fall within its administrative jurisdiction. Staff does not give legal advice, and the information staff provides should not substitute for legal advice.

Enforcement Staff specifically may assist callers by directing them to the laws that pertains to their questions. However, they will *not* review and approve contract forms or legal documents, approve specific business practices & models, or advise a person how to proceed in a given situation. The reasons are two-fold: First, IREC Staff does not give legal opinions or advice. Second, Staff knows it will not have all relevant facts and, as such, will be in no position to recommend an appropriate course of action without conducting a thorough investigation. Persons seeking advice should consult competent legal counsel.
